Bachelor of Arts, Major: Computer Science, Economics; Minor: Education, Spanish

GPA: 3.53

Obama Scholar, Posse Scholar, KIPP Scholar

Relevant Coursework: Statistics, Machine Learning, Macroeconomics

EXPERIENCE

Ednovate Charter Schools, Los Angeles, CA

(Technology & Data Operations Coordinator)

April 2024 - Present

- Serve as the main technology and data contact for students, families, and staff across 8 campuses, seeing each request through from intake to resolution
- Built a bilingual (English/Spanish) outreach tool that helps advisors track their caseloads and stay in regular contact with families
- Designed a monthly attendance audit with staff review and a full audit trail to find and correct discrepancies in student records
- Automated attendance recording, replacing about 3,000 manual entries per week so staff could spend more time with students
- Tutor and mentor students, mostly multilingual learners and students with IEPs, building lasting trust with students and their families
- Coordinate a bilingual student-and-parent agreement process for tech assets.

Bucket Labs, Los Angeles, CA

(Machine Learning Evaluation Intern)

May - December 2025

- Produced clear, actionable reports translating technical findings into recommendations for non-technical stakeholders and organizational partners.
- Collaborated with small businesses, nonprofits, and community-based organizations, including work aligned with immigrant-serving groups such as CHIRLA, to design secure, locally hosted data systems.
- Evaluated and helped design systems that securely managed highly sensitive data (e.g., Social Security numbers, addresses, and immigration status), ensuring privacy, confidentiality, and efficient access.
- Conducted system evaluations and testing to ensure reliability, accessibility, and ethical handling of community data.

Occidental College, Los Angeles, CA

(AI in Education Researcher)

Leveraging Generative AI in Education to Enhance Individualized Teaching

August 2024 - Present

- Co-authored "Edge Phoneme Recognition for Children's Speech through Age-Aware Training," whose age-aware training cut the accuracy gap across children's age groups by about sevenfold
- Presented and demoed the work at the Festival of Learning 2026 in Seoul, South Korea
- Synthesized findings into accessible reports and presentations highlighting implications for equitable education policy and practice.

SKILLS

- **Client and communication:** relationship building, explaining complex information simply, bilingual (English/Spanish)
- **Analytical:** data analysis, economic research, record auditing and reconciliation, Google Sheets
- **Technical:** Python (pandas, NumPy), Google Apps Script, process automation
- **Languages:** English, Spanish
